

June 25, 2014

Dear Clay,

I just wanted to thank you for your assistance with my loss. As a renter I never thought that my renter's policy was as important as it turned out to be. When you buy renters insurance you never really think about making a claim or what is involved in that process.

With your teams assistance all of my personal property was accurately and fairly inventoried and priced for my insurance claim. I would never have been able to complete the detailed physical inventory that The Greenspan Co./Adjusters international team assembled. I was amazed to see Bryan Fox in the burnt out remains of my apartment counting and documenting my destroyed personal items.

All of this detail resulted in the payment of my policy limits. I could not have asked for more and want to thank you all. Anyone who has a loss should hire The Greenspan Co./Adjusters International to assist them.

Sincerely,

Rosanne Rogers
